

## Headteacher Networking for Excellence

**The Headteacher Networking for Excellence Programme** is an opportunity for school leaders to come together in a safe space to explore different aspects of school improvement, learn from each other and build a coalition for strengthening leadership.

Essentially, the meetings will provide 'headspace' for leaders to think through challenges, celebrate best practice and planned reflection time.

During the course of the year, we will ensure network meetings provide a balance of leadership inputs and supported challenge linked to key education themes.

Meetings will be hosted in different Inspire Partnership schools and will incorporate best practice explorations as well as giving time to collectively tackle systemic challenges faced by school leaders.

### Programme themes will cover:

- Securing a climate where excellence flourishes
- Strengthening the power of collaborative leadership
- Developing a culture of evidence informed practice
- Leading curriculum design
- Securing better outcomes for all pupils
- Becoming a more inclusive school

We welcome schools joining this network and believe, collectively, it strengthens our professional voice drawing on each other's expertise in an environment of trust, professionalism and openness.
